### A CHANGE OF NAME OPPOSED

VOTE IN THE EPISCOPAL CONVENTION.

& STRONG MAJORITY AGAINST MR. JUDD'S PROPU-SITION-REPORT ON PRAYER-BOOK REVISION. CHICAGO, Oct. 16 (Special). - When the conrention assembled this morning there was a feeling of suppressed excitement visible on the faces of the deputies, for the fate of the resolution on the change of the name of the Church was to be decided, and though there was little doubt as to the result, there was much speculation as to the strength of the advocates of the change. By a suspension of the rules the house proceeded to a or the question immediately after morning prayer. The Rev. Dr. stringfellow, of Alabama, made a groug speech in favor of the change. The Rev. Dr. Davies, of Pennsylvania, called attention to the fact that there were more tone two sides to the question, and a great many sentimental audanistorical aspects of the case which have to be considered. As for himself, he disliked the name, but did not taink it expedient to make any change now. He therefore moved to amend the resolution of Mr. Judd by striking it out and inserting in its piace a statement that the Church is not at the present time ready to make any change in its name. The Rev. Mr. Stoudard, of Northern New Jersey, thought that there were really no good reasons why the name should there were really no good trassis with the hand to the changed. Nevertheless, he was opposed to the change, because it would grieve many of the Church's most loyal and faithful children. It would drive many of them out of the Caurch and would give the Church a backset from which it would not recover for many years. The latent opposition that exists against the Episcopa Charen would be roused by such a change and it would

lose much of its present growing juduouce. His advice, therefore, was to wait. The time for the change would come. Mr. McConnell, of Louisman, was recognized out of about a dezen members, who tried to catch she eye of the cour. He spoke for the lasty in opnosition to the He wis-ed to lift the question from the plane of experiency. Scriptural and canonical principles were involved which ca not be ignored. Like nearly all the Southern deputies, he spoke clearly and forcioty. Judge Sindey, of Virginia, the Nestor of the Low Church party in the convention, torlowed. Mr. Folsom, who supersoded Chardinas B. Wonster, of Connection, as consul at Shadheld, is a cousin of Mrs. Cleveland, and his appointment occasions some illustrated comment among Democrats who resent the President's recent utterances on the subject of official acportsm. Only a few dars ago he was reported to have taken Anditor Shelby to task on account of his proposition to appoint a son of Senator Pugh, of Alabama, to are sponsible place in the anditor's office. On that occasion he was quoted as saying that the Administration could not stand that sort of this. Some of Mr. Cleveland's critics suggest that he is not only it consistent but that his reproduction of hepothem was inslineare. Persons who profess to know something about Mr. Folsom's attainments assert that he does not posses the necessary qualifications to perform the duties of the important consulate to which he has been appointed. As he has bad no experience in the Consular Service, however, time alone can determine the question of his fitness. Consul Webster has been in the Consular Service since 1870 and his efficial record is said to be without a blemish. The salary of the office is \$2,500 a year and the free collected ansatz to about \$6,000.

BUFFALO, Oct. 16 (Special). -Mr. Folsom is a lawyer of good standing, but is young in the profession, being only a little over thirty. He never held an office, but was a clerk in the Buffalo Police Court a few years ago and was removed on account of some difficulty he had with the Justice. He is a Democrat. He was not surprised the Justice. He is a Democrat. He was not sarphisely when he was shown the dispatch announcing his applintment, and said the matter was arranged when he was in Washington last month. It was at first proposed that he should go to Austria, but he told the President he preferred to live in England. Folsons said he had no backing whatever, and did not think much of petitions and letters, believing a personal interview much more effective. He will start for England within thirty days.

RETURN OF THE HUNTERS.

WASHINGTON, Oct. 16 .- The Presidential huoting and fishing party returned to this city from Romney, W. Va., at an early hour this morning. They had a thoroughly enjoyable trip, and taking into con-sileration the unfavorable state of the weather yestersileration the unfavorable state of the weather yester-day were fortunate in their catch of fish. The head, antiers and skin of a fine "white deer" (said to be a rare species) killed by one of the party, were brought in by Commissioner Milier and lay on a window still in his office to-day. The animal was driven into the water by the dogs and made a gallant a ruggle for his life, wounding severely two of the hounds, but was finally sailed at rather long range by a rifle shot of Mr. Bivens. Barring a brief entangle-ment of a prominent member of the party in a barbed wire fence, resulting in almost irreparable damage to his clothing, no misuaps attended the chase.

AN ELECTION SCHEME THAT FAILED. Washington, Oct. 16 (Special) .- The Secresary of the Navy, Whitney, has flustly given orders to place the United States steamer Swalara out of commis-sion, at Portsmouth, N. H. Some time ago toe Swalara was ordered to Kitteny, Me., in order to help the Demo-cratic party there in the election of its candidate, Henry I. (inford, in Portland. The Swatar, had been sent to Portsmouth not withstanding the fact that the new holi-ers were ready for her at Norfolk, where they had been built, New, since they have been snipped to Maine, they cannot well be retrainsported to Norfolk, and must necessarily be put in in Maine, although Thomas B. tion, but this does not apply to men giready employed and carried along upon the "snapsnded" roll.
